White House budget office threatens mass firings if government shuts down

BOAC/GCs/DepSecs:

Thank you for your agency's efforts to date to prepare for an orderly shutdown in the event of a lapse in appropriations. As required by Section 124 of OMB Circular A-11, OMB held its first lapse planning call with agencies earlier this week, and we will continue to provide lapse updates as we approach the end of the fiscal year.

Over the past 10 fiscal years, Congress has consistently passed Continuing Resolutions (CRs) on or by September 30 on a bipartisan basis. Unfortunately, congressional Democrats are signaling that they intend to break this bipartisan trend and shut down the government in the coming days over a series of insane demands, including \$1 trillion in new spending.

Last week, the House of Representatives passed H.R. 5371, a clean CR that would fund the government at current levels through November 21. The Administration supports Senate passage of H.R. 5371, but congressional Democrats are currently blocking this clean CR due to their partisan demands.

As such, it has never been more important for the Administration to be prepared for a shutdown if the Democrats choose to pursue one. Thankfully, H.R. 1 provided ample resources to ensure that many core Trump Administration priorities will continue uninterrupted.

Programs that did not benefit from an infusion of mandatory appropriations will bear the brunt of a shutdown, and we must continue our planning efforts in the

READ THE FULL MEMO

With respect to those Federal programs whose funding would lapse and which are otherwise unfunded, such programs are no longer statutorily required to be carried out. Therefore, consistent with applicable law, including the requirements of 5 C.F.R. part 351, agencies are directed to use this opportunity to consider Reduction in Force (RIF) notices for all employees in programs, projects, or activities (PPAs) that satisfy all three of the following conditions: (1) discretionary funding lapses on October 1, 2025; (2) another source of funding, such as H.R. 1 (Public Law 119-21) is not currently available; and (3) the PPA is not consistent with the President's priorities.

RIF notices will be in addition to any furlough notices provided due to the lapse in appropriation. RIF notices should be issued to all employees working on the relevant PPA, regardless of whether the employee is excepted or furloughed during the lapse in appropriations.

Once fiscal year 2026 appropriations are enacted, agencies should revise their RIFs as needed to retain the minimal number of employees necessary to carry out statutory functions. Any proposed RIF plan must be submitted to OMB.

As a reminder, updated agency lapse plans were due to OMB on August 1. OMB has received many, but not all, of your submissions. Please send us your updated lapse plans ASAP. As previously communicated, we want to reiterate what we are expecting to see in these plans:

Donald J. Trump  

@realDonaldTrump

I have a meeting today with Russ Vought, he of PROJECT 2025 Fame, to determine which of the many Democrat Agencies, most of which are a political SCAM, he recommends to be cut, and whether or not those cuts will be temporary or permanent. I can't believe the Radical Left Democrats gave me this unprecedented opportunity. They are not stupid people, so maybe this is their way of wanting to, quietly and quickly, MAKE AMERICA GREAT AGAIN! President DJT

The Project 2025 Monetary Policy, Gold Standard and Federal Reserve

Written by [Bah, Kevin](#) - September 12, 2024 at 8:18 am. [Comments Off](#)

**The Project 2025 Monetary Policy,
Gold Standard and Federal Reserve**

The Project 2025 monetary policy proposals include:

1. Returning the U.S. to the gold standard (commodity backed money).
2. Elimination of the Federal Reserve's dual mandate of maximum employment and price stability replaced with a focus solely on price stability.
3. Reduce and limit Federal Reserve purchases of financial assets, including federal debt and mortgage-backed securities.
4. Limiting the Federal Reserve's lender-of-last-resort function, which offers loans to banks near collapse.
5. Exploring alternatives to the Federal Reserve System, including elimination of the Federal Reserve and the implementation of "free banking".
